RAILROAD LIST BUOYANT

New Bull Movement in Eries-Sharp Rise in Illinois Central Due to Successful Bond Issue.

NEW YORK, Nov. 26 .- Today's stock market gave some indication that the week's reactionary tendencies had been pretty well exhausted, and that the prevailing bullish sentiment was once more reasserting itself. About the only sentimental reason which could be advanced for the development of increased strength was the weakness in foreign exchange which has terminated, at least temporarily, the exports of gold and given the banks an opportunity to recuperate their reserves from the natural return of currency from the inrailroad equipment issues continued strong and scored good advances. American Malting preferred received favorable attention, and the industrial list was strong throughout. In the railroad list a renewed bull movement developed in the Eries. Illinois Central rose sharply on announcement of a suc-cessful bond issue and others showed aggressive strength. Atchison was strong notwithstanring the poor Octo-ber earnings which were due to floods. The local traction group was somewhat neglected, but Chicago Union Traction continued active and strong. The market closed buoyant at best prices of the day
Bonds were strong and active.
